student survey

How can the Students' Union improve your university experience?

- Increased awareness and support for academic issues, including academic regulations and support for academic struggles, are desired.
- More support with academic issues, including help with lecturers and courses.
- Improving integration between the SU and specific courses, such as health, would ensure that all students receive adequate support.
- Students want the SU to represent their interests effectively, engage with students more personally, and hold the university accountable on important issues.
- SU advocating for student rights, providing comprehensive support services, and representing student interests effectively.
